# Summer Class Descriptions

Our summer classes are designed to have a different feel than our school-year classes. Read the descriptions of each class and see the class times and days on the following pages.

## Classes for Toddlers & Preschool Age

### **Family Dance (ages 15 months to 3 years)**

The Family dance class is geared towards walking toddlers and young 2's and their caregiver. The little ones will enjoy moving to happy music, using engaging props, and working on motor skills and developmental milestones through fun. This class requires caregiver participation. *Additional siblings who are between ages 3.5-10 can join in as well in this summer class at no additional charge.*

### **On My Own Creative Dance (Transitional) - ages 2.5 & up**

This ballet-based creative movement class is a great first step into independent dance. Unlike the Family Dance class where parents participate in the movement activities, in this class the parents will be seated in the room just as a comfort to their dancers. Over this 5-week session, the dancers will slowly transition from needing their grown-up in the room to being able to enter the dance room and participate while their parent is in the lobby.

### **Storybook Ballet - ages 3.5-5**

The students will explore ballet concepts and skills while dancing their way through a story. Each class will use props, books, and visual aids to become fully immersed in the dance experience.

### **Tap Rhythm Adventure - ages 3.5-5**

Tap class is an adventure! The students will discover rhythm and musicality while learning the building blocks of tap. In each class, the dancers will go on a themed adventure.

### **Jump Into Jazz – ages 3.5-5**

This class is full of high-energy music and high-energy dancing too! The students will focus on the basics of jazz dance, which includes balance, coordination, and many large motor skill milestones. It's a learning-based dance party.

## Classes for New Dancers ages 7+

### **Beginning Ballet for ages 7 & up**

This class is geared to students who have little or no prior ballet experience. One goal of this summer session class is to get the students familiar with the posture and muscle strength needed for ballet as well as the basic steps and vocabulary. The class will also prepare the students to enter an appropriate ballet class for our school year session.

### **Beginning Tap for ages 7 & up**

This class is geared to students who have little or no prior experience in tap dance. ## Classes for Dancers with Prior Experience

The classes below are offered for ages 7 & up and are divided up in the schedule based on age range. Each summer class for our experienced dancers will provide them with material that will help their technique and artistry move forward, but with a fun twist! Summer classes are an important component in giving our dancers the most variety possible.

### **Ballet Variations**

In this class, the students will mix classic ballet barre and center training with Progressing Ballet Technique (a training style which incorporates exercise balls, yoga blocks, and more). During this 5-week session, a large focus of the class will be learning excerpts from historical ballet dances, called variations, as well.

### **Jazz Power Up**

The goal for this summer class is two-fold: 1) building stamina and strength in jazz progressions, like jumps, leaps, turns, and sequences of movement and 2) enhancing style and quick-learning skills through the use of jazz choreography combos. This summer session class will keep the students connected to their training and help them to step outside their comfort zone even more.

### **Tap Jam**

Get your tap skills in tip-top-tap shape this summer! In this class, the students will work on clarity and speed with skills and drills and they will push their musicality with rhythmic combos. They will also jam out and improve their comfort and confidence with tap improvisation.

### **Lyrical & Choreo**

In this class, the dancers will explore elements of modern, contemporary and lyrical dance. They will also have the opportunity to learn how to create their own phrases of movement and grow their artistic voice as a dancer through choreography.
